I-2 INSPECTION

I-2.1. When the DEUCE is made available for retrofit or upgrade, the contractor shall perform an inspection of the DEUCE to determine the current condition of the fielded vehicle. The purpose of the data collection is to provide both Caterpillar and the Government with information to assess the current fleet conditions and hardware. The information will be used as a partial post fielding assessment to look at current use and condition, and for evaluation of potential maintenance and training recommendations, possible system improvements, and possible trends.

I-2.2. The contractor shall inspect all vehicles being retrofitted in accordance with the checklist at Attachment 1, which will provide sufficient information for assessment of noted deficiencies or area of concern on the vehicle. The contractor shall submit the filled-out checklist for each vehicle in accordance with ELIN A001.

I-2.3. In addition to the above inspection, the contractor shall perform a more in-depth inspection on twenty vehicles identified below in accordance with Attachment 2. The contractor shall submit the filled-out checklist for each of the twenty vehicles in accordance with ELIN A002.

I-2.4 Fleet Assessment Report. The contractor shall submit a report to summarize the data obtained from the individual vehicle inspections. The report will be in the contractors developed format and it will address the contractors perception for the fleets conditions, hardware and maintenance trends, location trends, South West Asia (SWA) data (if applicable), area of concerns, and recommendations. The contractor shall deliver the report in accordance with ELIN A003.

I-2.5 Inspection Arrangements. The Contractor is responsible for coordination of the retrofit and inspection with the units. Reference I-1 for the location, POC, and serial number of the vehicles. The contractor shall informally notify the government via e-mail of its projected schedule and any subsequent changes to it.

I-2.6 If the individual unit requests any repairs to the vehicle based on the inspection report, the individual unit will have to authorize and pay for the repair.
